

## Examination information

Each test paper is built from a specification that specifies the weightings that will be assigned to each component. The details are shown below. It's crucial to remember that the statistics stated may fluctuate somewhat from test to exam since there's some leeway to guarantee that each exam has a constant difficulty level. However, each element's number of questions should not alter by more than two.

The current pass percentage for this exam is 63 percent, with a 70 percent pass score. The following are the exam grades:

- Pass with honours (46 - 50 marks)
- YES! (35 - 45 marks)
- FAILURE (0 - 34 marks)

<b>Examination specification 50 multiple choice questions</b>		
<b>S.N</b>	<b>Element</b>	<b>Question</b>
